📍 Toronto, Ontario, Canada

SKILLS

- Core Web: HTML5, CSS3 (Flexbox, Grid), Responsive & Mobile-First Design
- Frameworks & Libraries: React.js, React Native, Redux, Next.js, React Query
- JavaScript & TypeScript: Strong knowledge of ES6+, TypeScript, component-driven architecture
- Shopify Frontend: Liquid templating, Shopify Polaris, Theme customization, App UI integration
- Node.js Ecosystem: Node.js with Express.js, Socket.io for RESTful and real-time applications
- PHP Frameworks: Laravel, Symfony for scalable backend services and Shopify integrations
- API Design: RESTful services and GraphQL for flexible querying and integrations (ERP, CRM, fulfillment, payment gateways)

TESTING & QUALITY ASSURANCE

- Test automation and coverage using Jest, Cypress
- Advocates for test-driven development and continuous improvement of QA processes

DATABASES & STORAGE

- Relational: MySQL, PostgreSQL
- NoSQL: MongoDB, Firestore
- Search engine integration with Elasticsearch

PROFILE

Results-driven Shopify & Full-Stack Developer with 5+ years of experience designing and implementing robust integrations for e-commerce platforms. Skilled in Shopify (themes, APIs, custom apps), payment gateways, and third-party system integrations (ERP, CRM, fulfillment, marketing automation). Strong background in JavaScript, React, Node.js, PHP, and modern web technologies, with a proven track record of delivering secure, scalable, and high-performance solutions. Experienced in collaborating with cross-functional teams to translate business requirements into clean, efficient code. Passionate about building seamless digital commerce experiences that connect businesses with their customers.

EXPERIENCES

FullStack Developer - Full Time

MySoleas - Cameroun

September 2020 - February 2024

- Designed and developed Shopify integrations for Soleaspay, a payment aggregation platform, enabling seamless connectivity with multiple payment providers, CRM tools, and marketing automation systems.
- Built secure, scalable APIs to synchronize transactions, customer data, and orders between Shopify stores and external systems (ERP, CRM, fulfillment).
- Collaborated with business analysts and product managers to define technical requirements and deliver integration solutions aligned with business needs.
- Implemented payment gateway integrations (Stripe, Soleaspay, local providers), ensuring compliance with PCI DSS and improving transaction success rates.
- Wrote clean, well-documented code (Node.js, PHP, Laravel) while applying software best practices, testing strategies, and Agile methodologies.
- Created technical documentation for integrations, assisting future maintenance and knowledge transfer.
- Conducted unit and integration testing, resolving issues collaboratively with QA teams and ensuring robust, production-ready deployments.

E-commerce & Full-Stack Developer

Freelance

April 2024 - March 2024

- Delivered Shopify-based e-commerce stores with custom themes, third-party app integrations, and API-driven features, tailored to clients' business models.
- Integrated marketing automation tools (Mailchimp) and fulfillment systems for order tracking and logistics.
- Implemented secure checkout flows with localized payment methods.
- Optimized store performance, improving page speed and conversion rates through technical audits and UX/UI enhancements.
- Partnered with small businesses to evaluate short-term and long-term digital solutions, providing risk assessments and technical roadmaps.

NGUEFACK LEONEL

FULLSTACK DEVELOPER

TOOLS & DEVOPS

- Git, GitHub, GitLab, Jira
- CI/CD pipelines with GitHub Actions, containerization with Docker
- Familiar with Apache configuration for deployment and performance tuning

DEVELOPMENT PRACTICES

- Agile (Scrum) project management and delivery

LANGUAGE

French - Native

Fluent English

INTERESTS

Dance

Video games

Content Creator

Fullstack Developer - Remote

TheCodingMachine - France

September 2021 To January 2024

- Spearheaded the front-end architecture of a high-traffic real estate platform using Vue.js and Symfony 5, delivering a seamless and intuitive user interface that increased customer engagement.
- Executed comprehensive end-to-end testing and debugging protocols, significantly reducing production issues and accelerating release cycles by 30%.
- Optimized core application performance and stability, proactively resolving user-reported issues and contributing to a 40% drop in support tickets related to UI bugs.

React Native Developer - Remote

- Delivered and maintained cross-platform applications using React.js and React Native, ensuring seamless performance across both mobile and web environments.
- Collaborated closely with product and design teams to transform UI/UX concepts into pixel-perfect, interactive experiences while maintaining technical feasibility and performance.
- Proactively enhanced application responsiveness and efficiency, leading performance audits and implementing targeted improvements to boost user satisfaction and retention.

PROJECTS

Founder & Lead Developer – Sensai

- Designed and launched an AI-powered learning platform tailored for developers, integrating gamified learning paths, coding challenges, and project-based skill building—modeled after Duolingo, but focused on tech education.
- Engineered a scalable cross-platform solution using React Native (mobile) and React (web), backed by Firebase for real-time data syncing, user authentication, and content management.
- Optimized user engagement and retention through game mechanics, progress tracking, and mobile-first design, all while maintaining low latency and excellent UX across devices.
- Owned end-to-end product development, including UI/UX, infrastructure setup, deployment, and performance tuning—showcasing full-stack capabilities and entrepreneurial execution.

FORMATION

University Institute of the Coast

Bachelor Of Technology

2018-2020

Udacity

React & React-Native Developer

2020 - 2020
